Two players can participate in this game. A random rule is added. The tricky part is, that in the dialogue between the two, the last word of the one player must be the first word of the second player.

Example

- A: So how do I get to the train station?

- B: Train station --- let me think about it. First you turn left and then on the right side there are some stairs you should climb to the top.

- A: Top of the stairs is the train station, right?

- B: Right, the stairs are always so difficult for me.

- Etc.
